Auditor La Follette, himself a Republican, states in an official letter that he has been for three months trying to have Secretary of State Dawson report the assess ment on railroads made last May by the Board of Public Works, but has so far failed in the attempt. The scheme of holding up the railroads with the threat that nnless they do as they are requested in the campaign their assessment will be increased, is so much like the Mark Hanna method of getting campaigu contributions out of the trusts that it is pretty generally believed that the assessments are being deliberately held back for that pnrpose. This is the same Republican official who thinks it no wrong to practice perjury in furtherance of party ends.

In response to a call from the national headquarters for a concerted demonstration of Democratic Clubs all over the country on Saturday, October 27, Chairman Daniel, of the County Executive Committee, respectfully requests that all the Clubs of Jefferson county will meet in Charles Town on that day, and make the occasion a memorable one in our local political history. Eminent speakers will be in attendance, and it is hoped that every Democratic Ciub in the county will be out in full force. Come in with banners flying, and with large mounted delegations from every town and village in the county, and give evidence to the world that you are thoroughly in earnest and the trusts.

The facts are fully presented in the article which we reprint this morning, and are attested by an oath, subscribed to in regular form. The entire business well illustrates Republican methods.
